# Liberty Amendments Month, welcome!

## A Time to Celebrate and Reflect Together

### Hello!

Since 2021, Vienna has come together to celebrate the four Liberty Amendments that brought our nation closer to that ideal of a “more perfect union.” That year, Liberty Amendments Month was officially recognized as a statewide commemoration by unanimous vote in the Virginia General Assembly and this year’s celebration is focused on engaging, family friendly activities that help us appreciate our common bonds.

From our Juneteenth celebration commemorating the 13th Amendment to the Multicultural Festival that celebrates the liberties granted through the 14th and 15th amendments to activities that recognize the 19th Amendment granting voting rights to women, Liberty Amendments Month gives everyone an opportunity to reflect on the ideals that are at the heart of who we are as a nation. While the foundations of other countries have changed dramatically over time, “The Great Experiment” that our Founding Fathers crafted for the United States remains constant at the core, with a few tweaks along the way to ensure all citizens are granted equal liberties under the law as outlined in the U.S. Constitution.

Our system of government may be far from perfect, but it has survived the test of time and it continues to look in the mirror to make the necessary corrections that meet the changing dynamics of our cultural “melting pot.” From Juneteenth to the third Monday in July each year, Liberty Amendments Month is an opportunity to reflect on our way of life, to test our assumptions about others who are different from us and to rededicate ourselves to the ideals of “life, liberty and the pursuit of happiness,” for all citizens. I look forward to celebrating with you!

Warm regards,

Mercury Payton  
Town Manager, Town of Vienna

## Citizenship and equal rights

This amendment set out the definitions and rights of citizenship in the United States. The first clause asserted that anyone born or naturalized in the United States is a citizen of the United States and of the state in which they live. Sandford (1857) Supreme Court ruling which formally stated that Black people were not eligible for citizenship.

## June 29– July 5

### Voting Rights

This amendment prohibited governments from denying U.S. citizens the right to vote based on race, color, or past servitude. While the amendment provided legal protection for voting rights based on race, other means could be used to block Black citizens from voting. These included poll taxes and literacy tests. These methods were employed around the country to undermine the Civil War Amendments and set the stage for the Civil Rights Movement.
