## Council Adopts Town Budget

The Town Council has adopted Vienna's budget for the fiscal year beginning July 1. The budget for all funds totals \$16,502,334, an increase of \$876,989 or about 5.3% over last year. The real estate tax rate remains the same at 30¢ per \$100 of assessed valuation.

An overall increase of 15¢ in the combined water and sewer rate was approved for FY 1996-97. For the average customer (usage of 25,000 gallons per quarter), the rate adjustments will add about \$3.75 to the quarterly bill. The major reason for the increase is that many of the projects funded by the 1996 bond issue are water and sewer system related and, therefore, the water and sewer fund must assume a greater portion of the debt service cost. These projects, which include increasing water pressure, waterline cleaning, and installation of new waterlines, will result in improving the condition of the system infrastructure and thereby prolong its useful life.

A "Budget in Brief" summary is given below; complete copies of the budget are available for review or purchase in the Administrative Services Office at Town Hall.

## Permit Required to Erect a Fence

The Town of Vienna requires homeowners to obtain a permit before erecting a fence on their property. The fence permit application must be accompanied by a plat of the property showing the location of the proposed fence and a \$5 fee.

**On interior lots,** a fence may be erected to a maximum height of four feet in front of the house and six feet beside and behind the house.

**On corner lots,** a fence may be erected to a maximum height of six feet except in the following locations:

- A fence built within 25 feet of the property line abutting the side street may be no more than four feet high.

- That part of the fence built within 25 feet of the corner may be no more than three feet high.

- If the house behind yours faces the side street, your back fence may be no more than four feet high from the front of your neighbor's house to your property line at the street. (If the two houses are back to back, then your back fence may be six feet high along the entire rear property line.)

All fences must be constructed within the property lines. The posts and supports must face inward toward your house, and the finished side must face outward toward the street or abutting property.

Remember, fence permits are required before construction begins. For more information and assistance, call the Planning and Zoning Department at 255-6341.
